Gregory Lindqvist

4127 Maple Grove Avenue, Minneapolis, MN 55410 | (612) 555-0193 | greg.lindqvist@example.com

SUMMARY

Seasoned operations and supply chain leader with more than twenty years of progressive experience across manufacturing, distribution and third-party logistics environments, known for building high-performing teams, driving continuous improvement culture, partnering cross-functionally with finance, procurement and sales leadership, and translating corporate strategy into practical day-to-day execution on the shop floor. Deep expertise in lean manufacturing, Six Sigma methodologies, sales and operations planning, warehouse management systems, transportation management, vendor negotiations and capital project management. Recognised for a calm, steady leadership style, strong communication skills and an ability to manage competing priorities in fast-paced, high-volume environments while keeping safety, quality and customer satisfaction at the centre of every decision made across the organisation. Outside of work, active mentor for first-time supervisors through a regional manufacturing association, volunteer with a local food bank's logistics committee, and frequent speaker at industry events on topics such as workforce development, automation readiness and resilient supply networks.
