Rahul Venkataraman

Engineering Manager, Payments Platform at Ledgerline

Austin, Texas, United States

Summary

Engineering manager for Ledgerline's payments platform: 11 engineers across two teams responsible for the ledger, payouts and reconciliation services that move $2B a month.

I joined as a backend engineer in 2017 and grew with the company through three roles. I care about calm on-call rotations, clear technical writing and hiring people who are better than me.

Experience

Ledgerline

9 years 3 months

Engineering Manager, Payments Platform
January 2023 - Present (3 years 10 months)
Austin, Texas, United States

Manage 11 engineers across the Ledger and Payouts teams.

- Cut payout failures from 1.8% to 0.3% by funding a reconciliation rewrite.
- Reduced pages per on-call week from 23 to 6 through SLO-based alerting.

Senior Software Engineer
April 2020 - December 2022 (2 years 9 months)
Austin, Texas, United States

Tech lead for the double-entry ledger service in Go; migrated 400M rows from MySQL to PostgreSQL with zero downtime.

Software Engineer
August 2017 - March 2020 (2 years 8 months)
Austin, Texas, United States

Built the first payouts API and the Kafka event pipeline that replaced nightly batch jobs.

Infosys

Systems Engineer
July 2014 - June 2017 (3 years)
Bengaluru, Karnataka, India

Developed Java services for a UK retail bank's card-dispute workflow.

Education

Anna University

Bachelor of Engineering - BE, Computer Science · (2010 - 2014)
